Lagos, Nigeria

About

Full-stack web developer with extensive expertise across modern frontend and backend technologies. Specialized in translating complex Figma designs into pixel-perfect, production-ready interfaces with exceptional attention to detail. Proficient in both contemporary frameworks (React.js, Next.js, Vue.js) and traditional server-side technologies (PHP, Twig). Proven ability to architect scalable applications, implement secure authentication systems, and deliver high-performance user experiences. Experienced team leader committed to writing clean, maintainable code and building products that users love.

Technical Skills

Frontend: React.js, Next.js, Vue.js, HTML5, CSS3, Tailwind CSS, TypeScript, JavaScript (ES6+)

Backend: Node.js, Express.js, PHP, Twig **Database:** MongoDB **Design to Code:** Figma interpretation, UI/UX implementation, responsive design, accessibility **Tools & APIs:** RESTful APIs, CRUD Operations, Postman, Git, GitHub, VS Code, JSON **Soft Skills:** Team Leadership, Problem-Solving, Communication, Attention to Detail, Analytical Thinking, Adaptability

Experience

FRONTEND DEVELOPER —HNG 13 INTERNSHIP

2025 | Remote

- Engineered and deployed production-ready applications using cutting-edge frontend technologies in a fast-paced, competitive environment.
- Built a responsive, pixel-perfect profile card component with semantic HTML and accessibility best practices.
- Architected a full-featured ticketing application implementing advanced state management, component composition, and interactive UI patterns.
- Developed the Audiophile e-commerce platform using Next.js and TypeScript, implementing dynamic product filtering, cart persistence, secure checkout flow, and performance optimization, achieving sub-2s page load times.

WEB DEVELOPMENT INTERN/TEAM LEAD—TECH STUDIO ACADEMY

May 2025 - July 2025 | Lagos, Nigeria

- Orchestrated and led a cross-functional development team through the partial redesign of the Nigeria Immigration Service website, managing sprint cycles, coordinating daily stand-ups, and ensuring on-time delivery of project milestones.
- Engineered secure, production-ready authentication system (login, registration, password reset) using React.js, Node.js/Express.js, and MongoDB with comprehensive RESTful API integration, supporting user role-based access control.
- Translated high-fidelity Figma designs into responsive, accessible interfaces with pixel-perfect precision using React.js and Tailwind CSS, ensuring seamless UX across all devices and improving accessibility scores by 40%.
- Validated and debugged backend endpoints using Postman, implemented robust CRUD operations with optimized database queries for secure user data management.
- Maintained code quality standards through Git/GitHub version control workflows including strategic branching, comprehensive pull request reviews, and commit hygiene.

Projects

Nigeria Immigration Service Website Redesign—React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Git, Figma

Eggy's Place—React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Git, Figma

Ticketed Website—React.js, Vue.js, Twig, PHP, Tailwind CSS, Git

BetaHouse—React.js, Tailwind CSS, Git

Audiophile—Next.js, TypeScript, Tailwind CSS, Git

Professional Training

FULL STACK WEB DEVELOPMENT — TECH STUDIO ACADEMY April 2025 | Lagos, Nigeria

Completed comprehensive training in full-stack web development covering responsive design principles, backend development, database management, API integration, version control, and clean code practices. Built multiple dynamic applications demonstrating proficiency across the entire modern development stack.

Education

Bachelor of Engineering (B.Eng.) in Chemical Engineering — Second-Class Honors University of Ilorin, Nigeria • October 2023

Certifications

Full Stack Web Development Certificate — Tech Studio Academy, April 2025

Frontend Development Internship — HNG Internship, 2025
